SKILLS

Core Skills:
- Problem Solving
- Object-Oriented Programming (OOP)
- Software Development

Programming Languages:
- PHP, JavaScript, TypeScript, Lua, C#, Cocos2dx, ASP.NET

Backend Technologies:
- PHP (Laravel, CodeIgniter), Node.js, Web API

Frontend Technologies:
- HTML, CSS, Next.js, Vuejs Bootstrap, Tailwind CSS, jQuery, AJAX

Databases:
- MySQL, SQL, MariaDB, MSSQL

Tools & Technologies:
- Docker, Git, RESTful APIs, Odoo v10

Version Control:
- Git, GitHub, GitLab, Bitbucket

Cloud & DevOps:
- Basic knowledge of Docker, Nginx & AWS Deployment Strategies (EC2, S3, Lambda)

PROFILE

A FullStack Developer with 4 years of experience, skilled in both backend and frontend development. Proficient in multiple programming languages, I thrive in collaborative environments, combining technical expertise with strong communication. Passionate about continuous learning, I stay ahead in the evolving tech industry.

WORK EXPERIENCE

WBridges Inc, & Everlounge Inc. HY   2023 - PRESENT
Backend Developer

- Designed and developed scalable web applications using CSS, HTML, JAVASCRIPT, PHP, Laravel, CodeIgniter, Vue, Redis, GIT, MySQL and MariaDB.
- Created and implemented RESTful APIs for seamless communication between front-end and back-end systems.
- Analyzed proposed technical solutions based on customer requirements.
- Collaborated with product managers to prioritize and deliver new features on schedule.
- Managed version control using Git and Gitlab to ensure smooth collaboration and code integrity.
- Implemented and maintained CI/CD pipelines to automate testing, deployment, and delivery processes.
- Integrated and managed Nginx server for file management.
- Conducted code reviews, identified bugs, and applied necessary fixes to maintain code quality and efficiency.

Infinite Evolution Technology Incorporation   OCT 2022- JAN 2023
Fullstack Developer(ASP .NET C#) & 2d Game Developer

- Developed and maintained a scalable web application using C# ASP. NET, Cocos2dx, Lua and MSSQL.
- Developed and maintained a scalable mobile game application using Cocos2dx and Lua.
- Implemented and optimized RESTful APIs for efficient communication between the front-end and back-end of the game.
- Managed version control using SVN, Git and Bitbucket to ensure smooth collaboration and code integrity.
- Implemented and maintained CI/CD pipelines to automate testing, deployment, and delivery processes.

LANGUAGES

- Tagalog (Expert)
- English (Intermediate)

Codennected Technologies Co.
JUNE 2022 - SEPT 2022
Fullstack Developer

- Developed and maintained PMHA website using Next.js, and Node.js with Tailwind CSS.
- Modified and enhanced features for GSAC and Nimble apps using PHP CodeIgniter 3.0.
- Integrated APIs and optimized front-end and back-end performance.
- Enhanced user experience by developing and implementing a responsive front-end interface for web applications.
- Reviewed code, debugged problems, and corrected issues.
- Refactored legacy codebases to modernize software architecture and improve maintainability.
- Managed development milestones from initial steps through final delivery.

Digima Web Solutions
AUG 2021 - JUNE 2022
Junior Software Developer

- Contributed to the successful launch of a new software product by assisting with the design, development, and implementation phases.
- Participated in code reviews, ensuring adherence to established guidelines and promoting knowledge sharing among team members.
- Developed appyourservice.io from scratch using PHP Laravel, AJAX, jQuery, JavaScript, and Bootstrap.
- Built and optimized database structures for improved application performance.
- Conducted code reviews and debugging to maintain code quality.

Hammerulo Data Corporation
FEB 2020 - APRIL 2020
Full Stack Web Developer Intern

- Contributed to open-source projects, gaining valuable experience working on large-scale software development efforts using Laravel frameworks.
- Enhanced user experience by designing and implementing responsive web applications using HTML, CSS, and JavaScript.
- Collaborated with cross-functional teams to ensure seamless integration between front-end and back-end systems.
- Integrated third-party APIs, enabling seamless data exchange between applications and improving overall functionality.
- Modified and fixed bugs in a JIRA-based system using PHP Laravel.
- Implemented AJAX and jQuery functionalities to enhance user experience.
- Assisted in debugging and improving web application performance.

Achieved Without Borders Inc.
AUG 2019 - NOV 2019
ERP Developer Intern

- Engaged in continuous learning opportunities such as workshops or training sessions provided by the company.
- Provided valuable input during team meetings, contributing to the continual improvement of development processes and methodologies.
- Assisted in troubleshooting software issues for end-users, providing timely resolution and improving overall system stability.
- Mentored by experienced developers, gained valuable insights into industry best practices and real-world applications of various programming languages.
- Maintained and modified NEMAR Construction's website using Odoo 10 with Python.
- Assisted in ERP development and data migration processes.
- Implemented automation scripts for system optimization.

EDUCATION

Bachelor of Science in Information Technology   2015 - 2020
STI College Parañaque
Bachelors Degree

Computer Programming NCIV & Computer Hardware Servicing   2011 - 2012
Unicyber College - TESDA
Vocational

Electrical Technology   2010 - 2012
Parañaque City College of Science and Technology
Tech-Vocational Diploma Program
